Social Action Project: NoiseCastCreators

We created a newscast to show a different side of the news in the community!

- We created a YouTube channel and made different types of videos.
- The videos included V-logs in which pod members shared their opinions and ideas, as well as videos about Noise events in the community.
- We also interviewed respected community members.

Why is your project important and what did you accomplish?

- We wanted to get a different perspective across, to change the dialogue about the community because the negative representations of Jane and Finch affect people's lives.
- We believe youth will pursue greater things in life when surrounded by positive messages.

What did your pod learn about social justice and change?

- As a group, we learnt to critically analyze the way mainstream media portrays communities in the city of Toronto.
- We saw the importance and relevance of giving youth the opportunity to have their voices heard.
- We learnt the importance of team building and cooperation and the value of engaging pod members of all different ages and experiences.
