

NOISE for Social Change

Youth Fellows Evaluation

Post-Participation Survey

Thank you for participating in this research. This survey should take approximately 30 minutes to complete.

Your information and responses are **confidential** and will only be seen by the research staff. Your response will not be shared with your parents, your teachers, your pod members of other NOISE Fellows.

Instructions

This survey asks you about your attitudes and opinions; there are no right or wrong answers. This survey is not a test. Read each question carefully and answer it as honestly as possible, if you have questions one of the NOISE staff will be able to answer them for you.

You will complete this survey twice: once at the beginning of the NOISE program and once at the end. The survey you are filling out today is called the **Post-participation Survey** and records your attitudes and opinions **after** you complete NOISE.

The survey is split into four sections. Each section has a different focus. The sections are:

- Academic Engagement
- Civic Engagement
- Psychosocial well-being
- Your Experience in the NOISE Program

How to complete this survey:

Please take as much time as you need to answer **all** of the questions. It should not take more than 30 minutes to complete the survey.

You may use a pencil or pen to complete the survey. If you use a pencil it will be easier to change your answer if you make a mistake.

Follow the directions provided for each question and make sure to fill the bubbles in completely. If you wish to change your answer completely erase your last answer before choosing a new answer.

Before you begin – Have you signed your consent form?

Academic Engagement:

This section asks questions about your attitudes and activities at your school. When answering these questions consider **all of your experiences** at the school you attended last year (2012-2013).
